

Entrain February 27

From Daily Argus
Plans of the local board for sending the next Linn county contingent to Camp Funston have been changed by orders from the department. Instead of sending them for five days, beginning February 23, with one-fifth of them each day, the entire contingent will be sent Wednesday, February 27.

The men will leave over the Burlington with special cars attached to No. 43. This train will carry special cars with soldiers all along the line from St. Louis to Brookfield. It is understood that a special train will be made up which will carry the men direct to Camp Funston, and they will arrive there about midnight that night, the same as other contingents sent from this section. All preparations have been made for them there and they will go through the regular routine of inducting them into the service. There are now plenty of uniforms and these will be furnished them on their arrival. As heretofore, transportation will, of course, be furnished them, and they will be given meal tickets for their meals while on the way.

Men in this contingent who have been notified to report February 23, for at other dates than on February 27, will be sent another notice by the local board to appear on the latter date. They are instructed to disregard the first notice and all of them appear on February 27, under the late orders from the department. They are all expected to be on hand in ample time to prepare for entrainment at the hour mentioned.

Members of the board are not yet ready to make announcement of the names of the men who will comprise this contingent, for the reason that there may be some changes made by the district board before the date set. As soon as this is definitely settled, the names of all of them will be given.

A True Patriot

Riley Walker, of draft age, a farmer, and father of two children, walked into the court room the other day with his questionnaire. To Attorney Claude Hardwicke he stated he had a family to support but believed that the man with a family should be the one to go, as they had more to fight for.

Mr. Hardwicke thought Riley had grounds for exemption from the first class and placed him in the fourth class. But a few days after he came back with his wife, her father and mother, and they all stated that they would take care of his family for him while he is in the army. He was then placed in Class 1, Division A. The young man and the families show real patriotism.—Liberty Tribune.

The patriotic young man referred to above is a nephew of A. M. Walker of Laclede.

Attention, Mr. Farmer!

Say Brother Farmer, didn't you have a "Dickens of a time" to figure out your Federal and State Income tax returns? Because you kept no record of your sales of live stock, wheat, corn, oats, poultry, eggs, etc., or of your expenses in running the farm, didn't you "sweat blood" to find out just where you stood? And don't you know that these income tax laws will be with us for years to come and that the wise thing for you to do will be to start in right now to keep a correct record of the things you sell and buy during 1918, so that when you get ready to make out your returns next year all you will have to do will be to subtract your exemptions and expenses from your income?

To aid farmers in doing this, The Missouri Farmer, published at Columbia, Mo., has prepared a little "Farm Ledger" which makes the keeping of farm records a simple matter. It is so arranged that you can take an inventory of the grain, livestock, poultry, etc., which you had on hand on January 1st, and it has blank spaces in which you can record your sales and all manner of expenses from month to month during the year—and thus by having a copy of our "Farm Ledger" it will take you but a few moments at the end of the year to find out exactly where you stand and hence the filling out of your Income tax returns will become a simple matter. Not only that, but it will show you which of your farming operations have paid and which have lost. In other words, it will put your farm on a "business basis" and eliminate the "hit or miss" methods—something every farmer should have done long ago.

There are now on the market a lot of so-called "Farm Records" which cost all the way from \$1 to \$3.50—but the most of them are so complicated that it would take a Philadelphia lawyer to keep them while ours is so simple that any farmer will know exactly how to make his entries and how to cast up the finals at the end of the year—and as long as they last, we will give them free with two years subscription to the Missouri Farmer, for \$1, together with 10 cents to cover cost of mailing, etc. The Missouri Farmer is Missouri's greatest farm paper. It is issued on the 1st and 15th of each month and is the official organ of the great farm club movement which already has over 30,000 members in Missouri and with which the farmers of every school district should get in immediate touch. For instance, if you will get busy right away we will help you to save a lot of money on binder twine, commercial fertilizer, etc. Now we are only printing a limited number of the "Farm Ledgers" and you should therefore leave your \$1.10 at the office of the newspaper in which you see this notice at once. They will forward it to us and save you this trouble. Then as soon as the ledgers are off the press we will mail you a copy and also full details about the great farm club movement. Now don't put it off if you want to be in time for a "Farm Ledger."

There is an unwritten law in Linn county as well as other counties in Missouri, that an official who serves the people well should be elected to a second term.

No Need of Getting Shoes Half a Size Too Large

as so many ladies do—because they don't pay enough attention to the fit of the stockings. You can always get the "happy medium" of a comfortably snug fit—no waste room in the toes or heels, or about the ankles—no wrinkles to hurt and look slovenly.

There's a size in

ARMOR PLATE Hosiery

that is precisely your size. They're knit (never wet and molded) to size and shape. They'll neither shrink and bind your feet, nor stretch and wrinkle under the shoes, after you've worn them awhile.

Because they fit so well, they look trim and stylish; the extra wear you get out of them is due to the extra quality long-fibre yarn of which they're made and the special dye (Harmless) which positively doesn't burn, rot or weaken the fabric. Cotton, silk or wool—perfect in weave and wash.

of food. Everything you eat is high and going up. There is no better way for you to help win the war and help yourself than to raise more farm products. There's no better place for you to do this and get started with so little money than Western Nebraska, Eastern Colorado, Wyoming or Montana. Climate, transportation and markets are right. You can homestead a whole section or purchase improved lands on easy terms. This is a real opportunity for renters and farm hands who mean business and can act quickly. Tell me whether you prefer to raise grain, sugar beets potatoes, alfalfa, fruits, live stock or poultry, and I'll gladly give you the benefit of my advice.

There's no time like the present to get started.
